Hands-on Exercise No. 3 **Batch: 04** **AutoCAD**	**Total Marks: 10** **Due Date: 3/10/2019**

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use AutoCAD to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
  - It is submitted after due date.
  - It is not in the format of AutoCAD File (.dwg)
  - It does not open, or file is corrupt.
  - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Set the units of drawing as per requirement by applying different methods of setting units.
- Draw basic objects and understand basic architectural symbols.
- Design detailed Room Plan.
- Design Location Plan according to the requirement.
- Save the file in (.dwg) format by specifying a name.

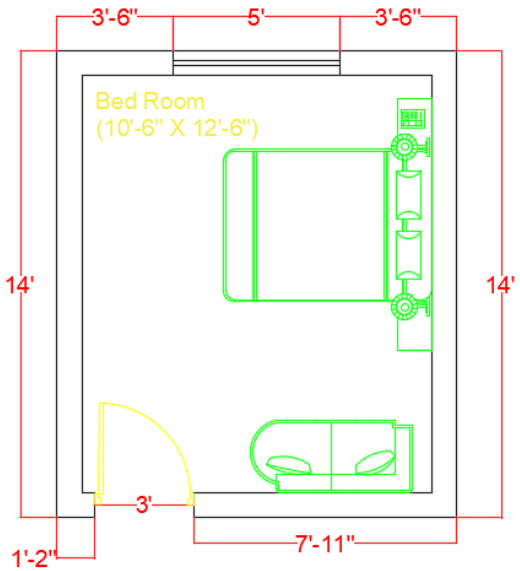

Problem Statement

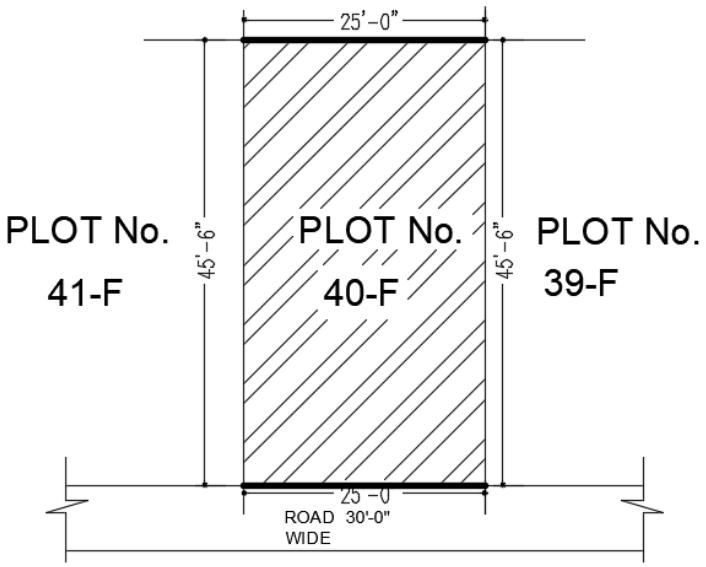

Please perform these steps:

1. Set the **UNITS** of the drawing to **Architectural** and precision to **0'-0 1/2".**
2. Draw a complete Bedroom plan of your house, according to given dimensions. It should include all the necessary details i.e. text, doors, windows, dimensions etc.
3. Draw the Location Plan of the same house plan and add necessary details.
4. Save the file with your name and submit it on LMS.

Note: The sample is just for your guidance. You are not supposed to copy this design, instead bring in your original creativity and designing skills.

Sample:

LOCATION PLAN.
