Hands-on Exercise No. 4 **Batch: 4** **AutoCAD**	**Total Marks: 10** **Due Date:23/10/2019**

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use AutoCAD to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
  - It is submitted after due date.
  - It is not in the format of AutoCAD File (.dwg)
  - It does not open, or file is corrupt.
  - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Set the units of drawing as per the requirement by applying different methods of setting units.
- Execute basic 3D commands.
- Draw the basic 3D objects e.g. walls, windows etc.
- Apply material on 3D objects.
- Adjust different views of 3D drawing and finalize the output.

Problem Statement

Please perform these steps:

1. Draw the 3D structure of a house plan which was created in previous Hands-on exercise or any other plan in AutoCAD 3D.
2. Place and apply material to the doors, windows, floor, roof, shade and other necessary components of the house plan in AutoCAD 3D.

Note: The sample is just for your guidance. You are not supposed to copy this design, instead bring in your original creativity and designing skills.

Sample:

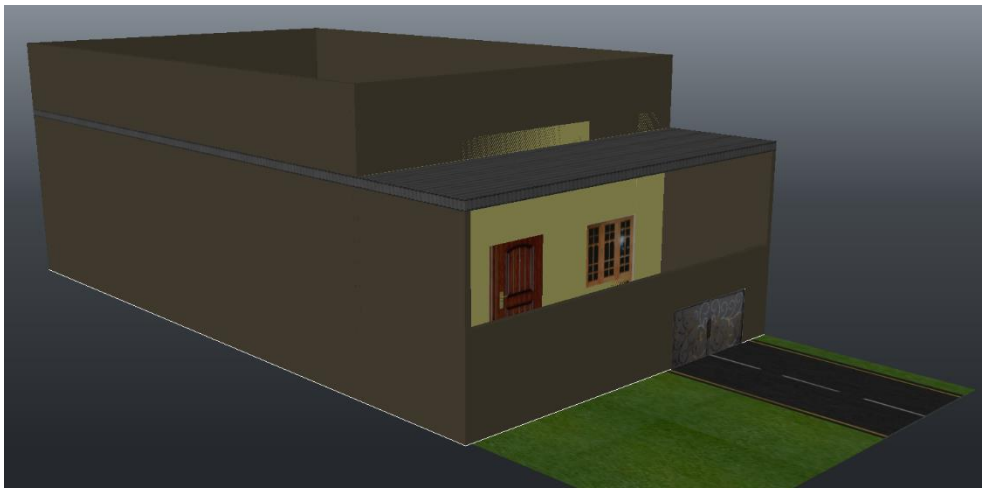

1. Front view:

2. Side view:

3. Perspective view:

“Design is not just what it looks like and feels like. Design is how it works”

-Steve Jobs

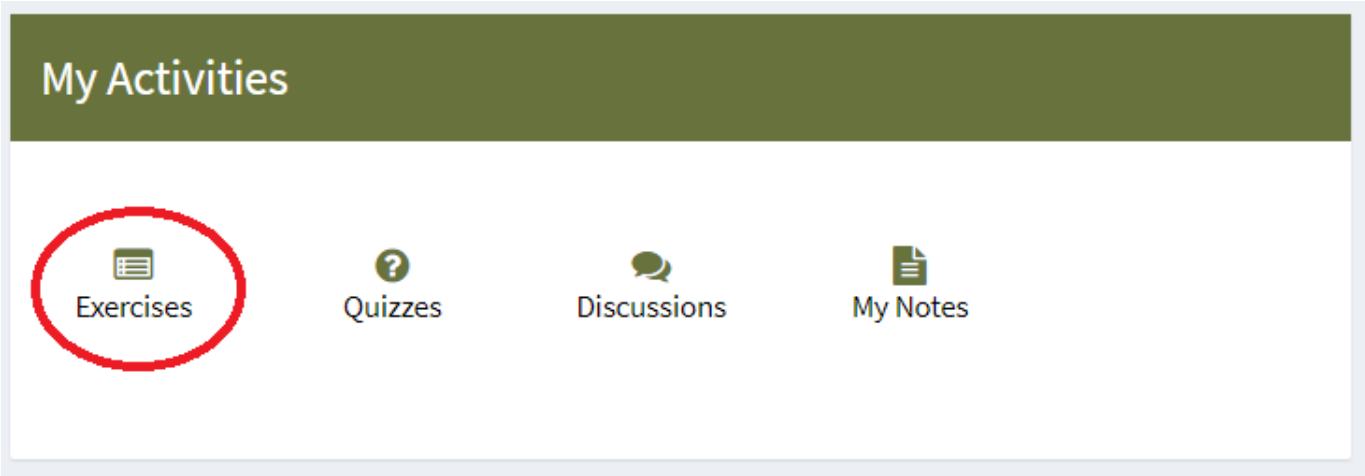

BEST OF LUCK ☺

How to submit solution file on LMS?

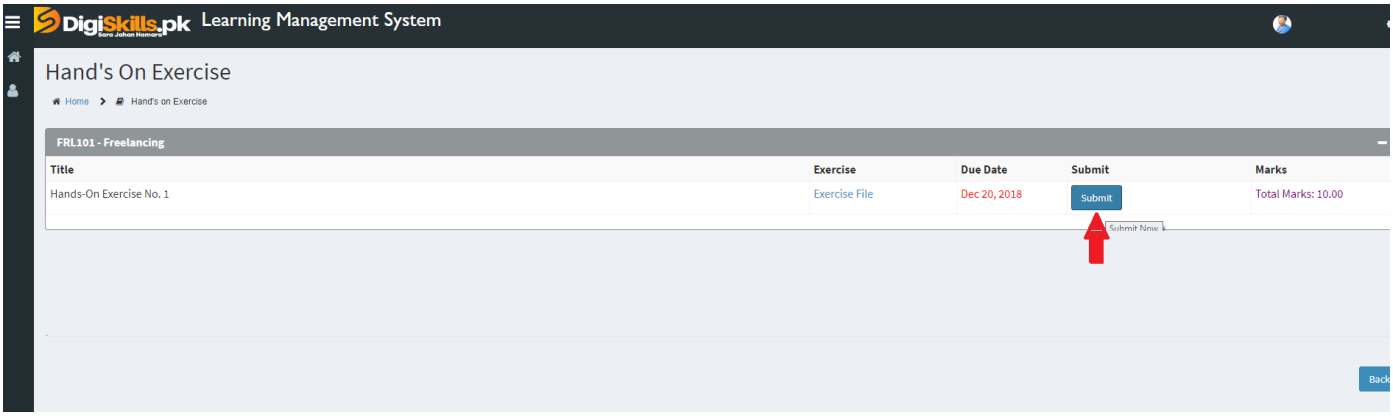

Please perform the following steps for submitting your solution using LMS:

1) Login to the LMS

2) Click on the **Exercises** button within the **My Activities** section

3) Click on the submit button to upload your Solution.

4) Please do not forget to upload your Solution file in .dwg format
