Problem Statement

What is a jingle?

A jingle is a short, catchy song or tune used in advertising. Jingles are a form of sound branding. A jingle contains one or more words that explicitly promote the product or service being advertised, usually through the use of one or more advertising slogans. A jingle should be easy to understand, memorable and demand attention of the listener.

Tasks:

You have to select a brand/product of your choice and write a commercial jingle on it using the knowledge you have gained from your lectures on jingles.

You also have to write a few lines about the brand/product, its tagline and the name of its competitor. You can take inspiration from the brand/products tagline while writing a jingle.

For Example:

Product: Coca Cola

Tagline: Open Happiness.

Jingle: "I'd like to teach the world to sing in perfect harmony. I'd like to buy the world a **Coke** and keep it company."

Guidelines:

Select any existing brand/product and search for information on it from the internet. Keep in mind the following rules while writing a jingle:

- The jingle should be short, catchy and must have the brand/product's name mentioned in it.
- Keep in mind the geographic location, cultural context, target audience and competitive position of the brand/product you have selected.
- You have to write the given tasks in Microsoft Word and submit the exercise in .doc, .docx format.
